

Stratos: Open Science

Experiences from TG7

Stratos Session: December 14

Bianca De Stavola

University College London, England

Vanessa Didelez

Leibniz Institute for Prevention Research and Epidemiology

Els Goetghebeur

Ghent University, Belgium

Saskia Le Cessie

Leiden University, the Netherlands

Erica Moodie

McGill University, Canada

Ingeborg Waernbaum

Uppsala University, Sweden

- Tutorial paper: Formulating causal questions and principled statistical answers, *Statistics in Medicine*, 2020; 39: 4922–4948 (with open access).
- Draft of the manuscript was published on Arxiv, <https://arxiv.org/ftp/arxiv/papers/1906/1906.12100.pdf>
- Website: www.ofcaus.org
- Courses: Pre-conference courses ISCB Vigo, Prague, Canadian Statistical Society among others.
- Simulation Learner: Mimicking a randomized intervention trial with a breastfeeding encouragement program (Kramer et al. 2001, JAMA)
- Simulation Learner code: Github, <https://github.com/IngWae/Formulating-causal-questions>
